Question No. 1

You are a Dynamics 365 Sales administrator. You configure a forecast template that uses the Forecast category as a starting point for a layout for the sales team.

The sales manager wants the value of the Lost column to come from the Total Detail Amount instead of the default value because the revenue is always driven by the items.

You need to make the change.

What should you do?

- **A.** Edit the existing forecast, remove the Lost column, and add a new calculated column.
- **B.** Create a new forecast and update the Amount field in the layout.
- **C.** Create a new forecast, remove the Lost column, and add a new calculated column.
- **D.** Edit the existing forecast and update the Amount field in the layout.

Answer: A

Question No. 2

Please wait while the virtual machine loads. Once loaded, you may proceed to the lab section. This may take a few minutes, and the wait time will not be deducted from your overall test time.

When the Next button is available, click it to access the lab section. In this section, you will perform a set of tasks in a live environment. While most functionality will be available to you as it would be in a live environment, some functionality (e.g., copy and paste, ability to navigate to external websites) will not be possible by design.

Scoring is based on the outcome of performing the tasks stated in the lab. In other words, it doesn't matter how you accomplish the task, if you successfully perform it, you will earn credit for that task.

Labs are not timed separately, and this exam may have more than one lab that you must complete. You can use as much time as you would like to complete each lab. But, you should manage your time appropriately to ensure that you are able to complete the lab(s) and all other sections of the exam in the time provided.

Please note that once you submit your work by clicking the Next button within a lab, you will NOT be able to return to the lab.

A sales manager requests to view all the closed opportunities by source campaigns. The manager wants the visual formatted as a stacked bar comparison of which closed opportunities are won versus lost.

You need to configure your environment to provide access to the visual. You must name the visual Opportunities Won vs. Lost by Campaign.

To complete this task, sign in to the Dynamics 365 portal.

- **A.** Explanation: Create a new chart. Select bar chart. Name the chart Opportunities Won vs. Lost by Campaign. Select the Opportunities view to be used by the chart. Configure the Legend Entries for Opportunities Won and Opportunities Lost by source campaigns. Click Save & Close.

Answer: A

Question No. 3

You cancel an order in Dynamics 365 Sales by mistake.

You need to mark the order status as fulfilled instead of cancelled.

What should you do?

- **A.** Change the order status fulfilled.
- **B.** Activate the order and change the order status to fulfilled.
- **C.** Recreate the order.
- **D.** Add the products back in to the original order.

Answer: C

Question No. 4

A company uses Dynamics 365 Sales.

You need to add an email activity to both a contact and its corresponding account without setting the Regarding field.

Where should you add the email activity?

- **A.** Dynamics 365 App for Outlook
- **B.** Quick Create form
- **C.** Account record only
- **D.** Contact record only

Answer: D

Question No. 5

You are a Dynamics 365 Sales administrator for a car dealership. You create a custom Service entity.

Salespeople must be able to see all related appointments in the timeline. A salesperson creates an appointment but is unable to see any Service records available in the Regarding field. Salespeople have permission to view service record.

You need to ensure that the salesperson is able to connect the appointment to the service.

What should you do?

- **A.** Create a connection to the Service record.
- **B.** Add a timeline to the Service form.
- **C.** Enable activities on the Service entity.
- **D.** Assign privileges to Activities.

Answer: C
